

March 12, 1975

SENATOR BURBACH: Members of the Legislature on your calendar the next issue is rules change. I would like to have a discussion on LR 8 at this time, because this is the last day and because of the time I would now like to jump over the rule changes and take up LR 8 and then go back to rule changes if the time permits.

PRESIDENT: Senator Bereuter.

CLERK: Read unanimous consent.

PRESIDENT: Just a minute please Senator, he reminded me that we are probably still under call. Do we have a motion? Senator Goodrich moves that we raise the call. Record your vote. Record Mr. Clerk.

CLERK: 33 ayes, 2 nays.

PRESIDENT: We are no longer under call. Senator Bereuter.

SENATOR BEREUTER: Mr. President, colleagues, thank you Mr. Speaker for expediting this matter. I am requesting unanimous consent that the hearing on LR8 before the Constitution Recreation Committee be delayed until next year at a point when the Chairman so chooses. The Chairman I understand has no objection to this but desires the filling of the body on it. My contention is to let the Agriculture and Environment Committee now considering anti-corporate farm bills proceed with their deliberations without any pressure of a constitutional amendment pending, possibly gather additional information this year watch other states, and since we could not vote on this issue, could not place it on the ballot before November of 1976 in any case, I see no harm in moving it to 1976. Therefore I ask for unanimous consent.

PRESIDENT: Is there objection from the unanimous consent motion, Senator Syas do you object?

SENATOR SYAS: (mike not activated) committee to make one short statement.

PRESIDENT: Proceed.

SENATOR SYAS: That is, I have received letters both ways, heavy mail, and I will not...I will abide by the determination of this legislature. I am neither for nor against what he is trying to do but I will not take this upon myself to in face of those letters to do it one way or the other. So, it is alright with me if it is deferred or not deferred.

PRESIDENT: Then you do not object to the unanimous consent. Senator Duis, do you have an objection to the unanimous consent?

SENATOR DUIS: Maybe I had better state my purpose first and we will find out. I object in this respect that I believe that the proper procedure here instead of trying to bind this Legislature's committee with next year's business that the proper procedure would be to withdraw the resolution and re-introduce it at the beginning of the next session so
